Railroads a Trifle Above Corn Is Easy-Oats Take a Monday's Plane and Bonds Are Easy

New York, N. Y. Sept. 29,-Announcement that the federal government would permit the International Harvester company to adapt itself to peots new wheat was continuing to arthe requirements of the Sherman law, without bringing suit for dissolution, effected a marked change in sentiment and the market became stronger after a heavy pronounced weakness

early in the session. Heavy selling of United States Steel and the refusal of the interstate commerce commission to suspend the Minnesota freight rates at the request of eastern railroads were the most depressing factors in the early declina. Recoveries during the second hour were general, and most of the standard railroad stocks sold a triffs above year. road stocks sold a trifle above yes-terday's closing. Steel got back to \$4%, or within % of yesterday's high

International Harvester also made up virtually all of its loss. Bonds were easy.

The market closed firm. U. S. Steel by went down to 14 to 100, with wide gaps between transactions before the support became effective enough to check the demoralization in the United

States Stoel securities.
Circumstantial reports were circulated that wages in the steel trade would be cut. Fears of government prosecutions of various industrial combinations were reflected in the wide-spread weakness in this class of stocks. Railies of a point or more were made in many issues before the session ended.
